

AFTERSCHOOL ACTIVITIES 2018/2019

**OVER THE RAINBOW A.S.B.L
INTERNATIONAL SCHOOL**

CHESS CLUB

Enrolment Procedure

Starting from 14 May 2018 (during the After-School Activities Information Evening) parents can pre-enrol their children for next year's after-school activities. (Note: the registration will only be finalised upon receipt of the fee payment).

Once the pre-enrolments are collected, the school will establish provisional lists, pending final schedule adjustments.

Please consider that for language activities, OTR school's teachers will evaluate whether the child is ready for an additional/foreign language.

Please keep in mind that the activities will not begin if the minimum number of participants is not reached. The parents will be informed if this happens.

Once the schedules have been finalised, the OTR school will send an e-mail to the parents to confirm or not the pre-registration and to inform them about the terms of payments.

Once the payment is received (payment must be made by bank transfer), the enrolment will be confirmed by e-mail.

Parents who will pre-enrol their children during the After-School Activities Information Evening (14 May 2018) will have priority.

If the maximum number of participants is reached, we will establish a stand-by list for the course. If a place then becomes available or if the OTR School decides to organise a second course, the children on the waiting list will have priority.

Parents can also register their children for such courses at any time during the year, provided spaces are available. The school will post the after-school activities list on its website and indicate any open places as well as set out the relevant enrolment procedure.

Language of the course: **FRENCH**

PROGRAM OF THE COURSE

CHESS CLUB

From beginner to advanced level

Chess course consist of:

- Initiation
- Improvement
- Customization of the training

TEACHER

FELLER SÉBASTIEN

I was trained at "Russian School" by Iossif Dorfman, who has coached several world-renowned players, and was coach of the famous Garry Kasparov. I train personal players of all levels: amateurs, at the top level worldwide. I trained the French number 1 at the time, Etienne Bacrot, and the number 1 German, Arkadij Naiditsch, for several years. I train or have coached different clubs in Lorraine: Thionville, EFE Metz, Maizières-lès-Metz and currently Metz Fischer, whose team 1st is in first division of the French Chess Championship.

NEW

PROGRAM OF THE COURSE

The LEGO Building activity is based on two solutions:

1. To Build LEGO kits, to learn to follow the instructions and create some real collections.
2. To use the classic LEGO bricks and invent new characters, buildings and personal universes with help of the teacher or not.

The children are free to decide what they want to do: solution 1 or 2.

They can change every week (decide to build something from a box or to invent a personal building).

The goal of the course is to develop:

- motricity
- Imagination
- Focus on doing
- cooperation.

TEACHER

NERINGA GRIKSTAITE

I am sport teacher with 10 years of experience, and I am also a fan of LEGO. I started to play with LEGOs when I was 3 years old and I never stopped. I am convinced of the utility of building activities for children and I really want to share with them all the possibilities they will discover during that time.

PROGRAM OF THE COURSE

The Bricks 4 Kidz® programs offer children **educational** and **fun** moments in each session by building models with LEGO® bricks, giving them the

Opportunity to:

- Develop their ability to solve problems,
- Stimulate their critical thinking through reflection processes,
- Explore STEM (Science, Technology, Engineering and Mathematics) concepts,
- Develop their relational and emotional qualities,
- Improve fine motor skills.
